Wildan Razaq Ramadhan

Product & UI/CX Designer

Jakarta, Indonesia qazarazaq@gmail.com qazarazaq.github.io linkedin.com/in/wildanrazaq

UI/CX designer working across consumer banking and wholesale financial services at Bank Mandiri. My work connects journey structure, interaction states, and detailed interface design across Livin' mobile experiences, physical gold ATMs, and Kopra SCM.

EXPERIENCE

Bank Mandiri

Jan 2023 - Present

User Experience Designer

- **Livin' Gold / ATM Emas:** designed mobile guidance and ATM interfaces for denomination selection, printing fees, and physical pickup, keeping gold weight and payment information distinct.
- **Livin' Food:** worked on restaurant discovery, categories, menu selection, and saved-cart states for available, closing, closed, and out-of-range restaurants.
- **Kopra SCM:** designed invoice overview, search, and status flows, organizing invoice identifiers, buyer information, amounts, and dates in a shared desktop workspace.
- **Livin Auto and Sukha Donasi:** worked on vehicle discovery and credit simulation, and donation journeys from campaign context and amount selection to payment.
- Collaborate with product and engineering teams on banking journeys, interaction details, and reusable interface states.

Telkom Indonesia

User Interface Designer — Feb 2022 - Dec 2022

User Interface Designer Intern — Mar 2021 - Feb 2022

- Translated ideas and user flows into website interfaces and interactive prototypes, working with UX designers and developers.
- Participated in user testing, communicated user needs to the development team, and contributed to a design system for design collaboration.
